

# Farm Manager

**POSITION TITLE:** Farm Manager – Sustainable Ag

**STATUS:** Full-time, Salaried

**REPORTS TO:** CEO

**POSITIONS REPORTING TO THIS POSITION:** Seasonally, up to 5

**LOCATION:** Smith Valley, NV - Northern Nevada with convenient access to Lake Tahoe

**EXPECTED PAY RANGE:** Competitive, commensurate with experience.

The Farm Manager - Sustainable Agriculture delivers consistent results in agricultural production and conservation. This role is pivotal and leads haying, grazing and specialty crop production within a leading environmental organization.

## The ideal candidate:

- Is committed to sustainable agriculture and long-term land health.
- Organizes and delivers complex production schedules and budgets and manages a diverse team.
- Enjoys working hands on and developing and mentoring team members.

## Expectations and Core Accountabilities:

- Deliver annual plans to boost hay, grazing and native seed production, aligning with sustainability and budget goals.
- Manage the full production cycle efficiently, from seeding to delivery, while also focusing on conservation efforts.
- Coordinate maintenance of infrastructure and manage resources in support of conservation goals, acting as a community asset and leading outreach activities.

## Requirements:

- A background in sustainable agriculture, especially in specialty crop production.
- Experience in managing agricultural operations, including planning, budgeting, and team leadership.
- Strong organizational and communication skills, with the ability to engage effectively with a wide range of stakeholders.
- A commitment to conservation and sustainable farming practices.
